Senator Maria Cantwell
U.S. Senate
511 Hart Senate Office Building
Washington, DC 20510

Dear Senators Collins and Cantwell:

We, the undersigned organizations, write to thank you for introducing S.110, the Medical Expense Savings Act which would make permanent the 7.5 percent threshold for the medical expense deduction.

As you know, for the past 75 years, Americans with high health care costs have been able to deduct medical expenses from their taxes. For the approximately 4.4 million Americans1 who annually take this deduction, it provides important tax relief which helps offset the costs of acute and chronic medical conditions for older Americans, children, pregnant women and other adults as well as the costs associated with long term care and assisted living. Medical expenses that qualify for this deduction can include amounts paid for prevention, diagnosis, treatment, equipment, qualified long-term care services costs and long term care insurance premiums. Families across the country with high health care costs face a constant stream of deductibles and high co-pays, and also pay out-of-pocket for various services and devices that enable the individual to live a productive life in the community. 70% of the taxpayers who claim this deduction have income between $23,100 and $113,000 per year2.

Even with Medicare, beneficiaries spend a large portion of their income on out-of-pocket expenses. The average Medicare beneficiary spends about $5,680 out-of-pocket on medical care. Furthermore, older Americans often face high costs for long term services and support, which are generally not covered by Medicare, as well as hospitalizations and prescription drugs. Tax relief in this area can provide needed resources, especially important to middle income seniors with high medical costs.

We look forward to working with you to ensure that tax filers with high out-of-pocket health care costs can continue to claim the current medical expense deduction after this tax year. We thank you for your leadership on protecting this important tax deduction.
