## RELIEF ALLOCATED TO OFFSET COVID-19 EXPENSES/LOSSES

Senior living providers in **RHODE ISLAND** care for vulnerable older adults in assisted living, memory/Alzheimer's care, and other senior congregate care settings.

The average age in senior living is 85, most residents suffer from multiple comorbidities, and need assistance with activities of daily living such as bathing, eating, or toileting—services which cannot be socially distanced.

Providers have incurred significant expenses from procuring gowns, gloves, masks and other infection prevention and control supplies, or lost revenue due to record-low occupancy rates—losses which are long-term, compounding, and unsustainable.

## COVID-19 IMPACT AMOUNTS TO \$16,381 PER RESIDENT
