

December 9, 2022

The Honorable Nancy Pelosi
Speaker of the House
Washington, DC 20515

The Honorable Kevin McCarthy
House Republican Leader
Washington, DC 20515

The Honorable Charles E. Schumer
Senate Majority Leader
Washington, DC 20510

The Honorable Mitch McConnell
Republican Leader
Washington, DC 20510

The Honorable Richie Neal
Chairman
Committee on Ways and Means
Washington, DC 20515

The Honorable Kevin Brady
Ranking Republican
Committee on Finance
Washington, DC 20510

The Honorable Ron Wyden
Chairman
Committee on Finance
Washington, DC 20510

The Honorable Mike Crapo
Ranking Republican
Committee on Finance
Washington, DC 20510

Dear Speaker Pelosi, Republican Leader McCarthy, Majority Leader Schumer, Republican Leader McConnell, Chairman Neal, Ranking Republican Brady, Chairman Wyden, and Ranking Republican Crapo,

As employers in communities from across the nation, we want to respectfully urge you to enact legislation that would provide us with needed financial assistance before the end of the 117th Congress. Employers have suffered not only from the pandemic and recent economic downturn, but also from natural disasters and inaction on the tax extenders that expired at the end of 2021. Traditionally, Congress has enacted a package of disaster tax relief provisions and extended expired and expiring tax provisions but has not since the end of 2020.

Since 2020, the country has seen numerous natural disasters such as wildfires in the West, and massive flooding and hurricanes in the South. Some of the largest wildfires that affected our country were California's Dixie Fire in 2021, New Mexico's Calf Canyon/Hermit's Peak Fire and the Moose Fire in Idaho in 2022. We have also experienced widespread flooding in the Southern region of the United States. This was seen in South Carolina in 2021 and in Western Kentucky in 2022. Finally, the Southern United States has been devastated by multiple catastrophic hurricanes such as Ida which resulted in severe damage to Louisiana, Mississippi, and Alabama in 2021. Most recently, Hurricane Ian devastated the West Coast of Florida and resulted in major flooding across the rest of the state and affected the Southern Atlantic Coastal states. All these cataclysmic events have resulted in significant economic losses, closures, and inability for employees to perform their jobs. These effects would be ameliorated by the enactment of the effective disaster tax relief that Congress has historically enacted since Hurricane Katrina.

We have also suffered losses directly related to the COVID epidemic, relief for which was cut short for the last quarter of 2021 when the Employee Retention Tax Credit was retroactively repealed as part of the infrastructure bill. Many employers in both the business and nonprofit communities were depending upon that tax relief to help keep their businesses open and maintain employees on payroll. That foregone relief is even more essential now as wages and costs of doing business have gone up dramatically over the past two years.

Additionally, we want to bring to your attention that at least eighteen (18) of the traditional tax extenders expired in 2021 and at least two (2) more are about to expire at the end of this year. These extenders such as the Indian Employment Credit often have a direct impact on our ability to hire. Historically Congress has retroactively extended the tax provisions that have expired and extended those about to expire as part of an Omnibus spending bill at the end of a Congress.

Most employers have and continue to face significant financial headwinds from natural disasters, the pandemic, the economic downturn, higher wages, and supply chain bottlenecks over the past two and a half years. Enactment of disaster tax relief, the tax extenders, and the reinstatement of the fourth quarter of the Employee Retention Tax is critically important to our financial wellbeing. We urge you to enact these provisions as part of the year-end spending bill. Your consideration for this time critical tax relief is necessary and greatly appreciated. Waiting until 2023 to address this vital legislation is not acceptable; the need is now.

Sincerely,
